

SUBSTANCE USE DISORDERS

ESSEX COUNTY, MA

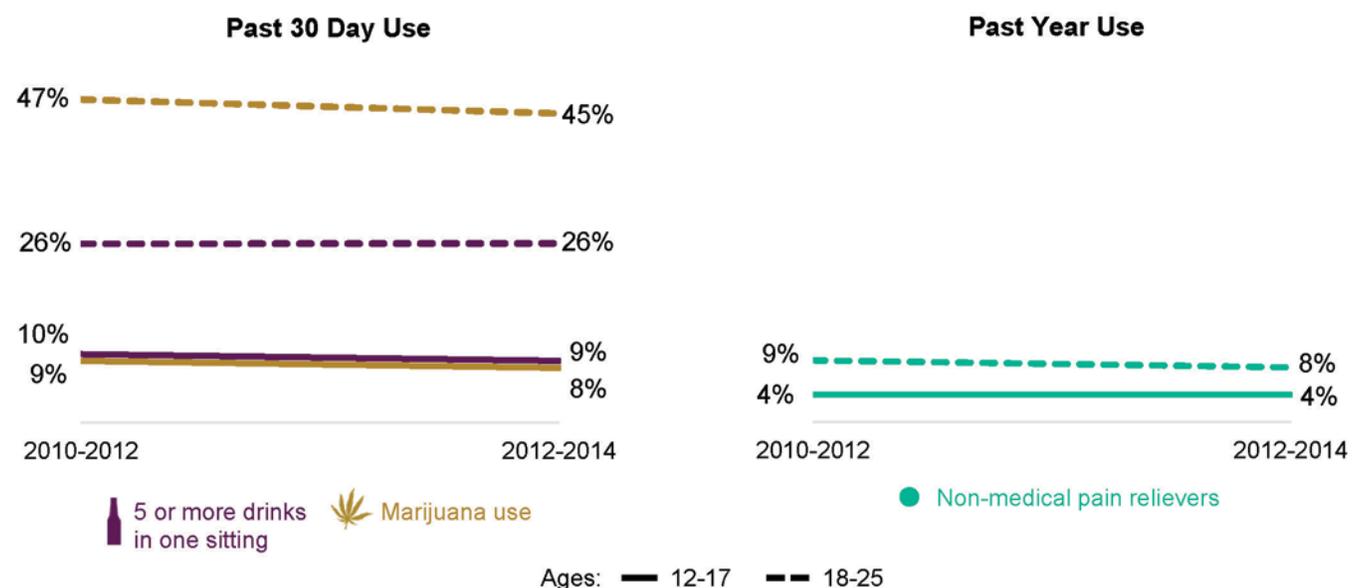

The Tower Foundation funds community organizations serving three geographic areas in the topic areas of substance use disorders, mental health, learning disabilities, and intellectual disabilities. This summary focuses on substance use disorders among youth and young adults within Essex County.

This information is intended to reflect community-level trends in the Foundation’s goals related to substance use disorders:

- Young people make healthy and informed choices about alcohol and drugs.
- Community members understand the prevalence and harmful effects of alcohol and drugs, and work to address them.
- Resources for substance abuse prevention, treatment, and recovery are readily available.

Goal: Young people make healthy and informed choices about alcohol and drugs

Indicator: Percent of young people with recent substance use (lower is better)

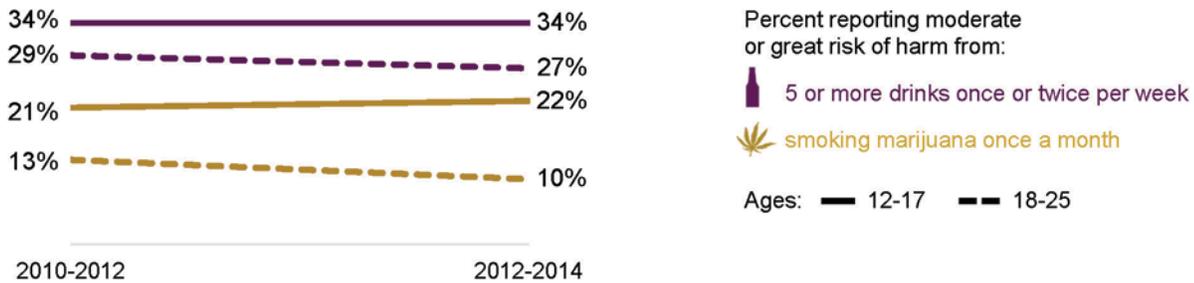

Source: National Survey on Drug Use and Health (NSDUH)

GOAL: Community members understand the prevalence and harmful effects of alcohol and drugs, and work to address them

Indicator: Percent of young people perceiving harm from substance use (higher is better)

Perceived Risk of Harm

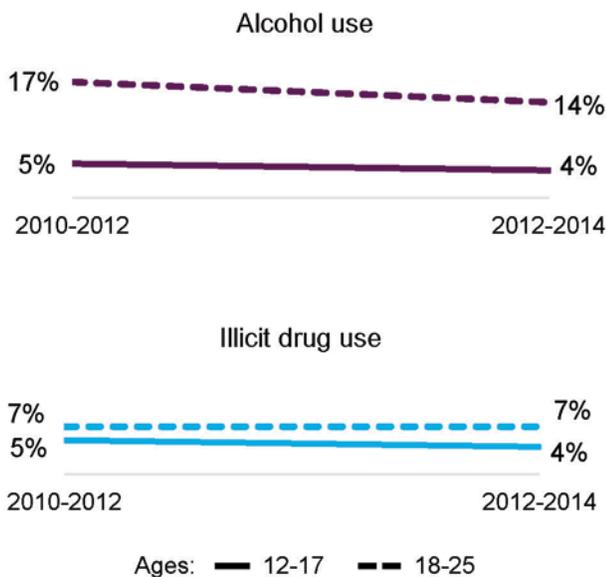

Source: National Survey on Drug Use and Health (NSDUH)

GOAL: Resources for substance abuse prevention, treatment, and recovery are readily available

Indicator: Percent of people needing, but not receiving treatment (lower is better)

Youth Needing but Not Receiving Treatment
